1819 PEACHTREE ST NE · ATLANTA, GA 30309

Visitor Parking Guide

No tickets, no gates. Register on your phone in about a minute.

1 Park
Use either entrance and take any visitor space.

2 Scan & register
Scan the QR code on a Park & Pay sign and add your card.

3 Drive out
A camera reads your plate and closes your session. No other action needed.

Where to enter

Surface lot – off Peachtree Street. Follow the Parking and Visitor signs into the lot.

Garage – off Palisades Road. Enter in the right lane (Visitor & Tenant Parking). The left lane is exit only.

Find a Park & Pay sign

There are **20+ signs** around the property and garage. These are the easiest to find.

Front entrance: on the pillars on both sides of the main doors.

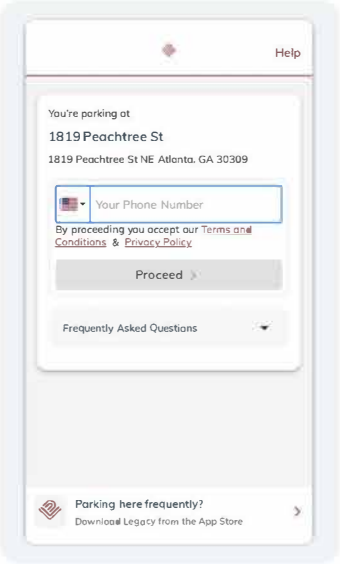

Garage, Level L1: on the wall beside the elevator lobby doors.

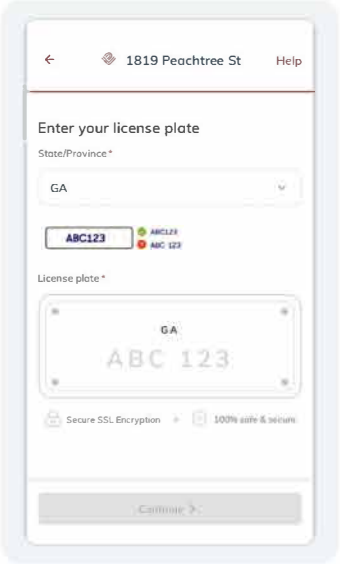

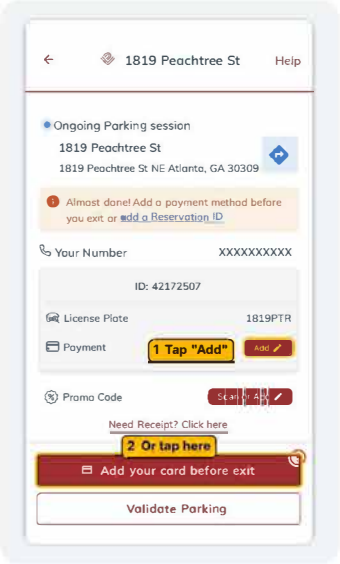

This is the sign. Scan its QR code with your phone camera.

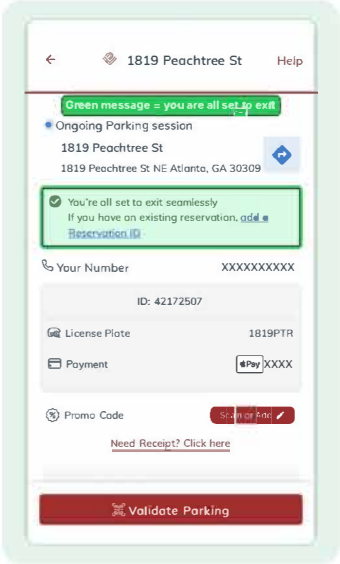

Register on your phone

Scan the QR code on any Park & Pay sign with your phone camera. No app needed. Then:

A Enter your phone

Numbers only, then tap **Proceed**. Used only to text you about your session.

B Enter your plate

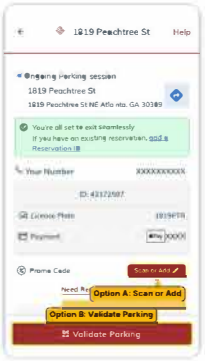

Pick your state and type the plate **exactly**, letters and numbers only.

C Add your card

Tap **Add** next to Payment, or **Add your card before exit**.

✓ See green? You're done

"You're all set to exit." An orange **Almost done!** means a step is missing.

Have a validation?

Tap **Validate Parking** or **Scan or Add** next to Promo Code, then scan or type your code. Apply it **before you leave**.

Leaving

Just drive out. The camera reads your plate and closes your session automatically. No additional action is needed.

Use the marked exit. The garage is one way. Leaving through the entrance means your session won't close.

Good to know

Parking is monitored by license plate cameras. Not registering, or exiting through an entrance, can lead to a fine of up to $99.

To dispute a citation, follow the steps on it or email **support@pavemobility.com**.
